POWNING'S POSITION.

Hon. C. C. Powning, editor of the Reno Journal, was recutly taken to task by the Times of this place, for occasionby the Times of this place, for occasionally reprinting items speaking favorably of the present Administration, and giving Senator Fair due credit for what he has done for his constituents. The Times asked Powning for a statement of his position, evidently thinking that it would drive that gentleman to admit that he had become a Democrat Such an admission would, we think, have greatly pleased the Times. Its California candibale for United States Senator from Nevada would then have one less bona fide resident candidate for that ofbona fide resident candidate for that of-fice to cont-nd against. But the Times has been disappointed. Mr. Powning has made a statement, but it does not please those Republican organs that will not allow a favorable notice of a Democrat to appear in their columns. In his "explanatio." Mr Powning has shown himself to be not only a Repudlicau, but a man, and told some trails which do not purificularly please. Republicans

POWDERLY'S PLAN

The San Francisco Chronicle says "The plan which Powderly has devised for the government of the Knights of Labor reveals a strong mind and a clear head It applies to the organ zation of labor the principle of decentralization, but this is held in check by a powerful central authority, which is supreme. The primary organizations are local assemblies, which deal with questions of labor and wages as they arise Above there are district assemblies, it does not exactly appear what territory they embrace, but they are superior to the local assemblies and appeals he from the latter to them Above these again are State assemblies, which are higher in in power than the district assemblies, and above all is the national assembly, which legislates for the whole order and whose edi is are executed by the Executive Committee of Eleven We are not informed how the members of the State or national assemblies are to be elected We assume as a matter of course that district assemblies are composed of delegates from local assemblies, and it is possible that these latter likewise choose members of State assemblies and the national assembly

The valuable feature of the plan is that the power of ordering a strike is taken away from the local assemblies and the district assemblies and conferred exclusively on the State and national assemblies. This will insure deliberation and will afford time for angry feelings to cool and for conciliation to have a chance Unions are far too ready to sacrifice the bread and butter of their members by ordering strikes when a little cool argument might have led to an adjustment Hotheaded spouters at union meetings are too apt to forget that women and children go hungry when men are out of Under Powderly's plan these muschief makers will have less power for evil than heretofore. They will have to report their grievances to their district assembly and _ain its approval, and likewise the approval of the State assembly before they can throw men

out of work To an outside observer the fabric which Mr Powderly is striving to elect seems a trifle complicated, but perhaps its details are not understood. The fewer machines the order can get along with, the more efficient will it prove The Luights are of course alive to the fact that governments are expensive luxures delegates and committeemen will have to be paid, and the more of them there are and the more work they have to do the more money will be required Mon of Powderly s experience must know that gratuitous service is the dearest service in the world. To get the best men the order will have to pay them The class of people who harangue labor meetings, and who can live on a cocktail and a free lunch, are not the men to whom the order wants to confide its destinies We should approve of Corgress making a modest appropriation for the pay of the eleven members of the Lacoutive Committee, if it reduced the number of strikes, the money would be well spent. But the Knights will have to defray the cost of their own district State and national as semblies. Possibly too it might be found in practice that too frequent or too protracted sessions of these bodies were not conducted to the best interests of labor

Cleveland Convention, and Martin Irons to go there and smoke the fatal first has been booted out of the order of Knights of Labor Irons was the ag gressive hot head, and everything he did brought disaster on the order Powderly was conservative and the wisdom of his course is everywhere acknowl edged

"There Ain's Much in This, Any. WAJ

WASHINGTON, May 29 -It is said that Senator Hearst is tiring of his official life It was supposed that a brief career in the Senate would what his appetite for more dignity and a more protracted Senatorial service It was thought that he would be ready to supply the sinews of war in the next campaign to secure his election to the Senate. It has been said by Hearst's friends in their confidential moods that the argument that finally decided Stoneman to appoint Hearst was that his liberality would do more to re-elect the present Governor

than anything else This whole plan of the campaign, so cunningly devised, will in all probability be upset by Hearst's withdrawal entirely from the contest. He said yesterday, "There am't much in this, anyhow," and he has confided to more than one person the incormation that he would not be a candidate for election to the Senate If this decision is final it will disarrange the entire plans of some politicians Hearst's experiences here will be watched with some interest. If they satiate him with the Senatorial life Stoneman will have to fight his battle single handed If, on the contrary, this life grows more agreeable to the new tor, Stoneman may have a partner capital It looks now as though with capital Hearst has had enough of the sober dignity of the Senate

Another Fast Sailing Yacht.

Naw York, May 28 -The new yacht Atlantic, built by the Atlantic Yacht Club to compete with the English cutter Galates, for the America's cup, made her first trial trip yesterday On her way down the bay the yachts Page cilla, Grayling Fanny and others tried conclusions with her, but were all bea ten off Captain Joe Elisworth, who steered the yacht Puritan to victory in her race with the Genesta, managed the helm of the Atlantic, and will have charge of her in her coming struggle He said yesterday he was entirely satisfied with the new yacht, which yachting men who witnessed her performance yesterday describe as a wonder. The Atlantic showed particularly good qualities to windward. It was found she buried her head too much in sailing dead before the wind She will be tried every day this week and will take part in the Decoration day sail of the club

At the White House

WASHINGTON, May 29 -- Miss Rose Cleveland, accompanied by her friend, Miss Nelson, of Albany, arrived at the White House at a late hour this evening, to be present at the President s wedding, the details of which are gradually assuming form It is decided that Benjamin Folsom, Miss Folsom's cousin, as her nearest male relative, will give the bride away, and it is very probable that Misa Cleveland will stand up with the bride, but whether the President will be supported by a best man has not yet been definitely settled. The general impression, however, prevails among those who are best informed that there will be neither bridesmaids nor grooms men An exceptionally large number of persons visited the White House today to pay their respects to the President and congratulate him on his approaching marriage

A Lesson on the Chinese Question

NEW YORK May 28th -A little gul FRIDAY, JUNE 4TH, 1886 thirteen years old, named Maggie Westbridge, was discovered a few days ago in a Chinese laundry and opium joint in Brooklyn Her father is dead and her mother lives with a Chinaman The place is described by the police as an opium joint of the vilest character, Powderly is the leading mind in the numbers of young guls being induced pipe which leads to ruin. Maggie and yesterday that there were more girls who frequented the place thin mea They are ill American girls, too The Society for the Prevention of Cruelty to Children will take care of the girl

FOR MARING THE UNITERSAL COMBINA-TION FENCE-DAVID YOUNG, PATENTER -Young and Jennings have just received one of those machines for which they have purchased the sole right to manufacture and sell this now universally known and guaranteed to be the best, most durable and portable fence ever manufactured, and peculiarly and especially adapted to fill a long felt want. This fence is needed and in time will be used by everyone that requires a fence, either around the house, garden or ranch. It is cheap, durable and serviceable, to keep in check horses, cattle, sheep, hogs, chickens, attached etc, and restrain dogs and coyotes, having all the advantages of a picket fence in restraining animals from jumping, and not so hable to decay, and at much less cost, and no barbs to injure NEW MANAGFMENT valuable stock, thus placing it far in advance of any other fence now in uschence it is inevitably the fence of the future. Wherever this fence has been introduced it has superceeded all others. It stands without a rival, and why? Because it is portable. A half mile of this fence may be taken down and removed in a few hours. The material may be hauled and a large number of stacks fenced in a single day. Fields may be fenced for temporary pasturage to turn all kinds of stock, on short notice and but little labor. It is strong -it has been proven by actual test that it is six times stronger than barbed wire. It is durable-it will last three times as long as any other fence. It is hog proof, horse proof, coyote proof, rabbit proof. No fence hitherto tried, except this, will keep sheep in and dogs and coyotes out It is cheap- in Ohio, Illinois, Missouri and other States where it has been introduced and extensively used it 13 declared to be from 30 to 40 per cent cheaper than any other fence, and taking into consideration its durability, at least 50 per cent cheaper We can refer you to thousands who have used it -the is their testimony. We will be pleased to furnish, upon application, any information desired, and we think that we can demonstrate that our fence is all that we claim for it. It is the

BIRCH AND COTTON'S MINSTRELS,-The following from the Stockton Independent is only a repetition of the papers of California where this popular company appeared. They will be here next Friday night, June 4th:

One of the finest minstrel troupes that has visited Stockton for some time apeared at the Avon Theater last evening The popular minstrels, Billy Birch and Ben Cotton, were on the ends, and H. W. Frillman was interlocutor. The W. Frillman was interlocutor. The songs in the first part were splendid, "The Arrow and the song," by H. W. Frillman, and "Dream Faces," by C. Henry, were well rendered. "Other Arrangements," by Billy Birch, was encored several times, but the finest song was "Hush-a-Bye-Baby," sung by the rising young alto, R. J. Jose. The scrobatte song and dance, by Franks and Marion, was treatly applieded. S. G. Marion, was freely applauded. S. G. Beaseley made sweet music on several different instruments. The afterpiece was ludicrous. The San Francisco Emmet Guard and the Stockton Emmet met Guard and the Stockton Emmet Guard were courteously invited by the management to attend, and they turned out in force. The show was first-class and highly appreciated by the audience.

THE DIFFERENCE.-The Lyon County Times says: "W. J. Marsh, the Fort Churchill cuttle man, took to Virginia several head of young beef cattle. They were mostly four-year-olds, and from common stock, but among the number was one sired by one of Mr. Marsh's thoroughbred bulis, and he out-dressed the four-year-olds nearly 80 purhids and the three-vest-olds nearly 200 pounds. This shows what a thoroughbred built will do in a band of cattle. It not only is a profit to the owner at the regular prices paid for beel, but the beel is much finer and will bring a higher price."

QUEER BUSINESS —The Carson Appeal prints the following: A gentleman who came up from Reno says that on Wedneeday an Indian was run over by the train and his arm out off. As he lav writhing in pain a doctor came along, but after looking at nim walked off, probably thinking that there was no money in the job. The poor fellow lay there half an hour until the County Physician was called in.

It would seem that the business of a physician is to relieve suffering of that description whenever he finds it whether there is money in it or not.
